Re: Red Dome Inc., and your certified letter dated December 2, 2004, and my response dated December 13, 2004.

Dear Mr. Haddock;

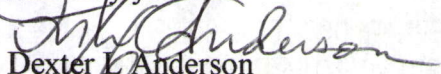

Please consider this as a follow up to our telephone conversation, December 29, 2004. As I explained to you, Red Dome Inc. has responded to your letter dated December 2, 2004 with my letter of December 13, 2004 with its enclosures and other information.

On behalf of Red Dome Inc. I have spoken several times with Mr. Lynn Wall, Wall Engineering, 55 South Main, Fillmore, Utah 84631, 435 743-6800 about the request for cross sections as contain in paragraph 6 of you December 2, 2004 letter. He apparently called and spoke with yourself and possibly others about using a picture array to provide the information you requested. You suggested in our December 29 telephone conversation that Mr. Wall speak with your Engineer, Mr. Doug Jensen, after January 3, 2005. I have relayed that information to Mr. Wall and he advised that he would contact Mr. Jensen and discuss the matter after Mr. Jensen returned to the office.

Red Dome Inc. request an extension of the January 3, 2005 date stated in your letter of December 2, 2004 in order to further attempt to meet the requirements.

Will you please advise me.

Sincerely yours,

  
Dexter L. Anderson
